

19 March 2020

Dear Durnacol Staff and Students,

It has come to our attention that a Durnacol student has been admitted to a healthcare facility to be tested for COVID-19. As preventative measure the Executive Management has decided to put the following procedures in place:

1. With immediate effect. Total shutdown of the campus for today 19 March 2020 until Tuesday 24 March 2020.
2. As soon as we receive the result we will communicate to staff and students the way forward.

Should the result be negative, which is highly likely, we will continue with our operations on Wednesday, 25 March 2020.

Should the result be Positive we will communicate the procedure via WhatsApp and mail as soon as we have received the results.

We strongly recommend that individuals go into self-isolation and apply all guidelines that has been communicated on campus level, and to visit reliable, reputable websites for precautionary measures you can implement at home.

Durnacol will make the student residence available to staff that would prefer to self-isolate at the campus, instead of at home. Please remember to arrange own bedding and cutlery.

Thank you for all your commitment and understanding. Hopefully we will all be back on Wednesday.

Keep safe and look after yourself.

Best regards

M
